'Cobtech' – the search for an investor

Who are Cobtech Renewables?

Cobtech Renewables Ltd are **exclusive distributors** of ULMA AB Sweden wood pellet heating systems in Australasia and the Southern African Region.

ULMA pellet systems provide cost effective & efficient heating for hydronic underfloor heating (HUFH) and general hot water & space heating requirements for domestic, commercial & industrial applications. In addition we offer biomass boiler systems to 2000kW and steam & electricity generation plants from our manufacturers in Europe.

See www.cobtech.net for more details.

Best Brands, World Tested

Cobtech offers the ULMA and HUFH brands which are tried and tested the world over:

- ULMA wood pellet heating systems are supplied across Europe, the UK, to the USA & Southern Africa;
- Cobtech Renewables have delivered first ULMA pellet heating units to customers in Australia & South Africa;
- Biomass heating systems including (HUFH) are generating positive interest from South Australia & Tasmania; and
- 4MWe Biomass Power Plant enquiries have been quoted on for Southern African clients.

Our Big Plans

Cobtech is in a new phase of growth and is interested in approaches from investors and partners.

Our key aims are as follows:

- to develop and grow the exciting biomass market in Australasia,
- to maximize opportunities to utilize the widely available biomass resources.

Who are we looking for?

Our ideal partner/investor is one with an interest and/or experience in biomass energy systems with an appreciation of the potential in Australasia today and in the future.

If our future is your future and you are interested in Cobtech Renewables, get in touch!
